OFFICE OF THE INSPECTOR-GENERAL OF PRISONS IN MYSORE,

No. 889 / 135-07 Ecu: 2. *Dated Bangalore,* 8th June 1917.

FROM

Rao Bahadur Rajakaryapravina

T. V. Arumugam Mudaliar, Esquire, M.B., C.M.,

Inspector-General of Prisons in Mysore,

Bangalore.

To

D. M. Narasinga Rao, Esquire, B.A., B.L.,

Secy. to the Govt. of H. H. the Maharaja of Mysore,

General *Department.*

SIR,

With reference to Government Order No.1788-800/P.W. 8739-51 dated 23rd August 1916, fixing the free allowance of water in the case of prisoners confined in the Jails of the State, I have the honor to bring to your kind notice that the quantity fixed for a prisoner is reported to be quite insufficient. I enclose herein, for favour of perusal, copies of letters Nos.386/F. 76 and 256/F.39 dated 30th September and 31st October 1916 received from the Superintendents of Bangalore Central and Mysore Jail respectively on the subject.

2. In this connection, I think that the quantity of free allowance of water for a prisoner should also be the same as that allowed for a free citizen Viz: 12½ gallons per day.

3. Under the circumstances, I request that you will be so good as to obtain and communicate to me the sanction of Government for raising the quantity of water which may be allowed free of charge in the case of inmates of Jails, at an early date.

I have the honor to be
Sir,
Your most obedient servant,

Inspector-General of Prisons.

(5

Letter No.256/F.39 dated 31st October 1916 from the Superintendent, Mysore Jail, to the Inspector-General of Prisons in Mysore, Bangalore.

With reference to your No.1723/135-07 dated 19th October 1916, I have the honor to state that no definite reply could be given as to the sufficiency or otherwise of the allowance of water allowed to prisoners as the Metre has been out of order since July 1916.

2. But judging from the consumption of water from 3rd February 1916 to 3rd June 1916 and taking the population as at present on the average of 250 prisoners from the readings kept these months, it is found that at the rate of 3,00,000 gallons a month, the consumption is 10,000 gallons per day which is about 6½ times more per man than the allowed quantity of 6¼ gallons. The allowance therefore sanctioned by Government is not sufficient.

" C o p y. "

Inspector-General of Prisons.

8/6/1917

Pris 62-16
Encl 1

Letter No.386/F.76 dated 30th September 1916 from the Superintendent, Central Jail, Bangalore, to the Inspector-General of Prisons in Mysore, Bangalore.

Adverting to your memo No.1633/135-07 dated 18th Septem 1916, giving cover to copy of G.O No.1788-800-P.W.8739-51 date the 23rd August 1916 regarding the free allowance of water for Bangalore & Mysore Jails, I have the honor to bring to your no that 6½ gallons per head per day is too small a quantity for c victs for the following reasons :-

1. Their rations are low and they are regularly employ on labour, and so they require more water to drink than t average quantity necessary for the population outside.

2. They are mostly engaged in labour which necessitate frequent ablutions in order that they may be clean.

3. They have only one suit of clothes and these requir to be washed frequently.

4. The curtailment of water will thus be prejudicial t the health and cleanliness of the prisoners, I therefore request that the rate may be adequately raised.
